## Need Sales Experience and Want to Make Good Income

The Southwestern Co. is a 152 years old and is made up of 15 different companies including Investing, Real Estate, Insurance, Public Speaking and much more. Students who work with the Southwestern Internship gain experience, communication skills, advancement opportunities and 5 figure summer income potential in 12 weeks of work. Most students also qualify for internship credits as well.

Skills are gained through sales and students will learn the basics of running a business and become efficient time and emotional managers.

All majors may apply but students looking for business experience are preferred. Those with less than a 2.5 GPA need not apply. Applicants should have strong work ethic, be self motivated and be willing to learn from experienced managers.

The average student earned between \$7000-9000 last summer while top first year students will earn 2-3 times this amount.
